Michael Hodges

Fullstack Web Developer

ABOUT

I am a graduate of Enspiral Dev Academy and am eager to continue developing my skills in a professional setting. I am captivated by both the opportunity for creativity front-end development offers, and the technical problem solving logic back-end development requires, ultimately prompting me to aspire to become an experienced FullStack Developer as I progress through this industry.

SPECIALIZATIONS

- JavaScript / TypeScript
- Node.js
- React / Redux
- HTML5 / CSS3 / SCSS
- Bootstrap / Styled Components / Material UI
- Git / GitHub
- SQLite3
- Socket.io
- React Native
- C#
- Agile

WORK SUMMARY

FULLSTACK WEB DEVELOPER

Enspiral Dev Academy | 2019

- Simulated work environment
- Over 600 hours of coding in katas, personal projects, and group projects
- Progressed from a rudimentary understanding of basic static HTML/CSS/JS websites to the ability to competently construct responsive and fast fullstack web apps based on the React/Redux/Node/SQLite3 stack.

OVERNIGHT SUPERVISOR

Puna Whakataa | The Salvation Army | 2018-2019

- Solo role supervising vulnerable clients overnight
- A challenging role requiring a competent and trustworthy individual being the sole overnight staff member on shift in a house managing the treatment of up to ten individuals suffering from mental health and addiction issues.

ADMISSIONS CASEWORKER

Epsom Lodge | The Salvation Army | 2017-2018

- Managing the admissions process for potential clients, and presenting cases for admittance approval/disapproval to the Operations Manager
- A role with a heavy amount of responsibility, involving managing the admissions process from initial contact to final decision. The involved clients were particularly vulnerable, most applying due to homelessness, mental health or addiction issues, or as an exit address from a corrections facility. This thus involved a delicate balance of empathy for each client's individual situation, and risk management of the client's potential impact on the safety of the lodge and the other clients residing there.

TEACHER'S ASSISTANT

Auckland University of Technology | 2016-2019

- Online grading of year one and two papers in the subjects of developmental psychology, statistics, and academic writing.

INTERESTS

- 3D Modelling
    - Blender
- Game development
    - Unity, C#
- Writing
    - Fiction novels, game design documents
- Art
    - Sketching
    - Graphic design
        - Photoshop
